UK & European Specification

The Double Pagoda Lite PURE LED - also referred to as the Pagoda Pagoda Lite - has two G4 lamps, which a general lighting effect. This luminaire is not for directional lighting. The lens is manufactured from high quality UV stable polycarbonate with stainless anti-glare mesh. An opal frosted lens is also available as an option.

The Hunza PURELED system uses the latest Cree MTG-2 LED chips for maximum performance and long life. Power supply options include a choice of integral 12 volt driver, an integral Retro™ 110/240 volt driver or an external remote driver. The integral Retro driver has a 0-10 volt dimming function. PURELED incorporates an innovative Plug-and-Play system for easy replacement or upgrade of either the LED engine or integral driver.

The Retro™ version is ideal for installations where mounting an external power source is a problem, e.g. on a brick wall where there is no space to recess the driver. The base size increases in depth to accommodate the encapsulated IP66 dimmable driver.

*At 700mA this fitting is the equivalent of a 35w halogen fitting.

*At 1050mA this fitting is the equivalent of a 50w halogen fitting.
