

RP-E-1510P

## XO Pendant

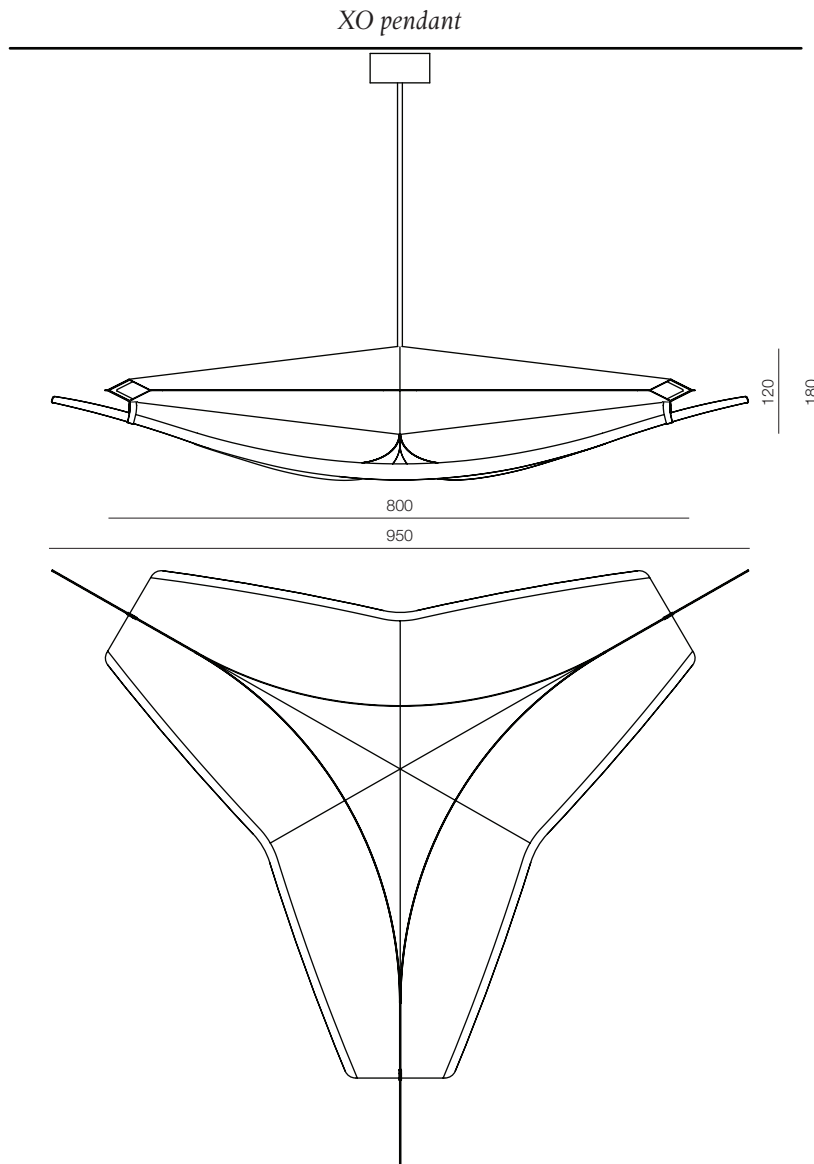

*Design: Studio Edwards*

Using translucent film, XO demonstrates the importance of structure and embodies the elegance of sail shaping and yacht design. The form and balance of this high-end LED luminaire relies on three brass battens acting as an exo-skeleton, pulling the 'sail' into shape. Much like the competition of open-water events, this luminaire places an emphasis on the application of technical skill.

# XO Pendant
