

Birdie, suspension design Ludovica+Roberto Palomba 2015

FOSCARINI

The Birdie family of lamps is inspired by the poetic image of a bird on a branch, in a range of forms on the wings of its designers' creativity and Foscarini's research. Each version of Birdie is a design in its own right, although all are always recognisably part of the Birdie range with its stylised image of a twig. Birdie Suspension is suspended in the air with its straightforward and harmonious diffuser in three colours: white - with a pleasantly diffused light - metal-chrome or metal-copper with a surface as precious as a jewel and a downward directed light. Its setting

and composition potential is endless, from living spaces to bedrooms, public venues and hotels, together with other models from the Birdie collection.

Birdie, suspension technical info

FOSCARINI
