FOSCARINI

Rich, bright and sophisticated, the Caboche lamp is a mosaic of refractions, a perfect fusion of different personalities in the one form, coming together to create the body and light effect of the lamp. When it is turned on, the light diffuses from inside the spheres like lots of bright crystals, providing 360° lighting of the surrounding environment and guaranteeing an illuminated underlying surface. Caboche table is a small jewel of creativity and technology, available in two versions: transparent and yellow gold. The original design of the stem is created by the three

supports that join together to form the round base, recalling the spherical form of the diffuser, and thus guaranteeing a combination of coherence, originality and lightness. Caboche is the perfect protagonist for homes or public areas, uniting visual impact with lightness, decorative value and functionality.
