

# Lumiere XXL+XXS, wall design Rodolfo Dordoni 2014

FOSCARINI

The wall lamp Lumiere XXL and XXS characterise the space with its own dynamism, thanks to essential and brand new geometries, created with the expert craftsmanship of master glassmakers. Their movement is created by their strong lines and by the orientation of the upper surface of the diffuser, which lies oblique to the surface it rests on, as the result of a cut that sections the glass in a surprising and original way. By using multiple versions of the two dimensions or simply orientating the glass in a different way you can create an interplay of balance and lively

compositions. The unprecedented simplicity of the wall lamp allows it to be integrated into a multitude of contexts: a perfect wall lamp in a range of settings, such as in a corridor, or even a bedside lamp.
