

HIGHLIGHT HEMP

Tradition meets material innovation to create an elegant and environmentally friendly pendant lamp. Made out of hemp leftovers that are compression molded, the Highlight Hemp pendant has natural ingredients and a natural wax finishing. Its smooth surface uncovers the natural pattern of the material structure. It provides a warm and directed light, that can suit any room at home or in commercial spaces.

● Dark green

CREATION PROCESS

The material is compression molded under high pressure. The lamp shade and the other electrical components are assembled by hand.

CATEGORY & ENVIRONMENT

Pendant lamp - Indoor

DESCRIPTION

The hemp pendants are small and medium-sized lighting that can be combined together in a row or in a cluster. The lamps are LED friendly and good for the environment.

CLEANING INSTRUCTIONS

We recommend cleaning the surface with a dry cloth. Extended exposure to humidity can damage the lamp's surface. Make sure you switch off electricity before cleaning. Since only natural ingredients are involved in the creation, we can not guarantee color stability. The color can, therefore, change it is the peculiarity of natural materials.

MATERIAL

The lamp shade is a mixture of industrial hemp leftovers and a biodegradable binder. A carnauba wax coating protects the surface from moisture.

BULB NOT INCLUDED

E27 LED Globe (45) 4,3W
E27 LED Globe (60) 7W

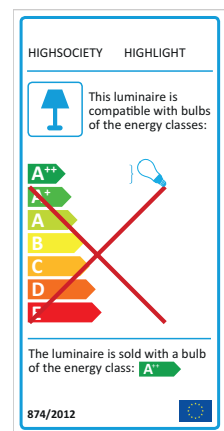

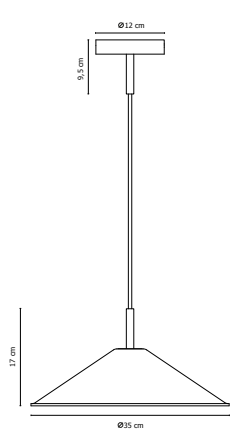

CORD AND CANOPY

The ceiling canopy is included. The cords are made out of black cotton and have a length of 2mt.
