Atmosphere, anywhere

A few years ago, we wondered why there wasn't a better alternative for candles when it came to creating atmosphere. What if there was a cleaner, safer, more sustainable substitute that still created that candlelit ambience?

In response, we joined forces with design studio APE and set out to build a friendly, battery-powered lamp that could provide the same warmth and personality. In late 2019 we launched our first design, the Humble **One**. Since then we've expanded into to a whole range of cable-free mood lights, from table to wall.

This winter, we're introducing a new member to the Humble family: **Bug**. Compared to its older siblings it's gotten bigger, but still maintains that friendly and sophisticated look that has become our trademark. For **Two** we're launching new real linen shades in three classy colourways: beige, emerald and brown.

Please have a look on the pages of this brochure for all the lights we have on offer. If we've piqued your interest, feel free to contact us directly via info@humblelights.com.

Team Humble

Humble One

Perfect place for mood lighting, but no plug socket nearby? Our cable-free Humble One is packed with up to 140 hours of light to create instant atmosphere, anywhere.

Available in a wide range of finishes – from woods and marbles to fabrics and metals – the Humble One suits any home or commercial environment.
