

Wireflow lineal

0338

Design By Arik Levy

Wireflow designed by Arik Levy. Linear hanging lamp. Its appearance, as a structure of fine cables finished with six 4,5W LED terminals, is ideal for discretely connecting with classic chandelier models, taking this type of lamp to a new, groundbreaking and futuristic dimension. Employing CREA product configurator software, the design can be modified to adapt to your specific project requirements. Ideal for decorating large spaces, particularly ones with high ceilings, including hotel reception areas, retail sales points and food and drinks bars.
