INSTALLATION INSTRUCTIONS

! Electrical products can cause death, injury, or property damage. Maintenance and installation should only be carried out by a professional electrician.

- Ensure the main supply is switched off.
- Make a cutting hole Ø3.8cm on the mounting surface (1).
- Connect the positive and negative ground wires, and connect the power cord (2). Making sure all connections are tight.
- Fix the mounting plate using self-tapping screws (3).
- Slide through and fix the cover backward to conceal the installation base (4).
- Reconnect power.

WARNING

! Make sure that the products are installed properly before connecting to electricity. Do not cover the luminaire. Do not exceed the maximum wattage rating of the lamp. If the light source is contained in this luminaire (integrated LED), it shall only be replaced by the manufacturer, his service agent, or a similarly qualified person.
